

Selection of wines and other beverages

KULT316 RESTAURANT

KULT316, the centre of gastronomy and tourism, is a unique and representative example of contemporary educational practices in hospitality, tourism, food technology and nutrition. The new premises of the Biotechnical Educational Centre Ljubljana, which include a demonstration kitchen, teaching kitchen, conference hall, conference room, wine cellar, information point, school microbrewery, restaurant and a coffee shop, are open to the general public, and offer students the opportunity to gain practical experience in an authentic learning environment. You are kindly welcomed to KULT316 Restaurant! In the elegant atmosphere of KULT316, nestled in a green corner of Ljubljana, you will enjoy fresh culinary delicacies based on the Central Slovenia gastronomic region, and representative dishes of other gastronomic regions of Slovenia. There are seasonal menus featuring locally produced and fresh ingredients, ensuring authentic flavours of dishes as well as retaining sensory properties of ingredients. The menus, created with the help of the students attending the Biotechnical Educational Centre Ljubljana, include traditional dishes of the Central Slovenia region prepared in a modern way. Our chefs, whose vision is the continuous upgrading of skills and lifelong learning, use modern cooking techniques, such as slow cooking and low-temperature frying. With its stylish architectural design, the restaurant enables guests to observe food preparation. The food is served by professionally trained staff who are always willing to give wine pairing recommendations. Our house wine KULT316, the Sauvignon and Pinot Grigio blend, is the result of the great student project named FROM VINE TO WINE. You can also have the house beer KULT316, brewed in our school brewery. In addition, the KULT316 Restaurant boasts a great wine list, which will take you on a tour around all the wine-growing regions of Slovenia. You can indulge in traditional Slovene wines or internationally recognised wines kept in our wine cellar. The students of Hospitality and Tourism at BIC Ljubljana, who gain invaluable practical experience of fine service and culinary art at KULT316 Restaurant, will be very happy to serve you.
